

We want smart and great people with the following profile:

- Strong international profile and work experience or internship in strategy consulting, investment banking or Big4
- Advanced skills in business and financial modelling
- Profound market analysis and research capabilities
- Ability to comprehend and evaluate online business models
- Excellent academic performance combined with extra-curricular activities
- Excellent MS-Office skills (Excel and Power Point)
- Team player who seeks to work in a fast-paced, young and tech infused environment
- Additional CEE languages are an advantage (German skills for international applicants not mandatory, but nice to have)
- You have an entrepreneurial can-do attitude, are curious and able to start working with us for a minimum of 3 months

Tasks and Requirements:

- Immersing in technology related corporate development and M&A projects
- Assisting with corporate development deal flow generation
- Analysing and evaluating specific technologies, models and industry sectors
- Embracing great responsibility by independently managing work packages
- Working with the team throughout M&A projects and take part in developing our company and culture

What we offer:

- Deep insights in the world of startups, incubation/seed capital and specialized M&A
- No routines, but new challenges
- Direct collaboration with founders and the i5 ecosystem in CEE/US
- An amazing working environment (Loft-office, table-soccer, unlimited coffee, great people from all backgrounds and nationalities)
- Potential for joining the team on a full-time basis
- Industry standard salary

We would like to hear from you! Please send your resume and application to: jobs@i5invest.com
